Minutes of the

Electricalmaintenancework will once again take place within Memial Courtover the Christmas period resulting in a complete loss of power everywhere except the FML which is to be used as a study space by students. At this point CR mentioned that she has a meeting planned this week with the Estates Manager who thinks that the number of students may be so small they will use a different area.tostudy. This will be discussed in detail later this week.

On the 3th December bothAL and JR plan on swapping over to the University internet link and whilst pulling cableswill also rewire the WCDCThe extraswitchesthere are no longer needs will create a more direct link to our new hardware.

Overthelast few weeks we have aned a couple of monitors to students. The planned loan of an ex MCS PC did not materialise.

Both UIS and Aruba have acknowledged the power issues with access points which in the sattof signal. They have various software updates planwed the next few months to remediates.

AL and JR went to St Reglast weekto inspect the structure and work out a plan for fitting access points in the ceilinglnitially there were concerns that the ceiling could not be lifted once installed but the electrician hasonceded that this can be done. We are therefore getting ready to institation the 14th DecemberThis Thursday will see the installation of the new network switches as on Wednesday afternoon St Regis will be officially connected by fibre to Castle End at the Colony.

JR spoke about 102 Chesterton Road which was purchased just beforettbetstearefurbishment of St Regis. Initially there were no networking plans for this perty but during the refurb it was decided to run power and heating circuits into 102 Chesterton Road from the main St Regis building to save money and that networking was now requilteds now in discussion with the Estates Manager, the MCR housing rep and the Project Managere how this can be financed the money was not budgeted for.
