	There were no declarations of interest.	
	The minutes of the last meeting were agreed.	

This has gone well, with lots of information passed

over.

The UCS supported the adoption of a Net Carbon Zero target.

A Green Week is normally run with drives for composting. The UCS would also like to have different speakers and to promote work the Committee around the college. This is

given to people on request. William Foster will discuss with the Dean. It was not possible to break down consumption by office / room. The monitor screen for Old Court Lodge is still in use in Catering. Jo to look at whether metering data (for the site as a whole) can be put onto the Library screen. Individual item monitors can be borrowed from the University to look at particular pieces of equipment.	Э.
Kate Hargreaves met a PhD student from Robinson College in March, who is researching biodiversity and discussing with head gardeners across Colleges about how to improve this. The Botanical Gardens use this app, and the University is also using as part of their overall monitoring. Kate is setting one up for Clare, and would like to then open it up to the wider College. The orchids which were transplanted are now showing leaves, and the border appears very healthy. This would be a good time to do a biodiversity walk along the border. Kate will contact Ed Turner to see if he is able to run another walk.	кн
With changes to lockdown measures, not as much takeaway packaging is expected to be needed, and so this would be too costly to set up at present. This will be actioned from next week. From next term it is planned to increase vegan and vegetarian formals to weekly. To be sent to Andrew Balmford and Jb. To be updated with a review date.	LC AB/JC AB/JC
